

BowTie Risk Analysis of the Valve Train in a High-Performance VW AP 1.8 Cylinder Head Operating at 10,000 rpm

Short title: BowTie risk analysis of the AP 1.8 valve train at 10,000 rpm

Target journal: *Proceedings of the Institution of Mechanical Engineers, Part D: Journal of Automobile Engineering* (SAGE Publishing)

Article type: Original Article

Author contributions (CRediT taxonomy)

Darlan Costa Porto: Conceptualization, Methodology, Formal analysis, Investigation, Visualization, Writing – original draft.

Heitor Oliveira Gonçalves: Methodology, Validation, Formal analysis, Writing – review & editing, Supervision.

Florian Pradelle: Methodology, Validation, Writing – review & editing.

José Cristiano Pereira: Conceptualization, Methodology, Supervision, Writing – review & editing, Project administration.
